PROFESIONAL SUMMARY

Motivated Computer Engineering graduate with hands-on experience in Java, React.js, SQL, Android development, and REST APIs through internships and projects. Strong understanding of web and application development with practical experience in building KrishiMitra and Restrozone. A quick learner with good communication, teamwork, and problem-solving skills, eager to contribute to a dynamic software development team.

SKIILS

Technical Skills

- Languages: Java, JavaScript, Python
- Frontend: HTML, CSS, React.js
- Backend: Java,PHP, Servlets, JDBC, REST API
- Database: SQL, MySQL
- Tools: Git, GitHub, Android Studio Vs Code, Postman

Soft Skiils

- Communication
- Interpersonal Skills
- Teamwork & Collaboration
- Adaptability
- Problem-Solving
- Quick Learner

INTERNSHIP EXPERIENCE

Java Full Stack Training & Internship at Qspider Pune **Duration: 6- Month**

- Completed comprehensive training in Core Java and Advanced Java, covering OOP, Collections, Exception Handling, JDBC and Servlets.
- Web applications using HTML, CSS, JavaScript and React.js, focusing on responsive and user-friendly interfaces.
- Worked with SQL and database concepts, including queries, CRUD operations and database connectivity.
- Strengthened aptitude, logical reasoning and problem-solving skills through regular assessments and practice.

Android Development at Mouthtreach Solution Pvt.ltd. Amravati **Duration: 4 Month**

- Developed Android application interfaces using XML, focusing on clean, responsive, and user-friendly UI designs.
- Learned to build, run, debug, and test Android projects using Android Studio and the Android Emulator.
- Gained hands-on experience in deploying Android applications on physical mobile devices and testing application functionality.

PROJECTS

KrishiMitra - Smart Farming Support Application

- Smart farming application providing farmers with crop, mandi, weather, and agricultural information.
- Integrated government APIs, GPS-based mandi search, live crop prices, and weather data using Volley for API communication.
- Implemented crop recognition, disease detection, fertilizer recommendations, and multilingual support in English, Hindi, and Marathi.

Restrozone - Online Food Ordering System

- Created a food ordering platform with cart, online orders, and table booking features.
- Integrated PHP and database for managing users, food items, orders, and bookings.
- Added an admin dashboard for managing food items, orders, and table reservations.

EDUCATION

B.Tech in Computer Engineering-7.0 CGPA
bajaj Institute of technology, Wardha
2023-2026

Diploma in Computer Engineering -81
Government Poletchnic, Arvi
2020-2023

SSC-82%
Adarsh Vidyalaya, Anji
2015-2020

CERTIFICATIONS

- Android Development
- Java Programming
- AWS Certification
- Gen Ai & Craft Precise Prompt for AI
